

Virtual Directory Survey Findings

We surveyed the community and found that a Virtual Directory is needed and wanted on the Central Coast*

These results are shaping our upcoming project. Thank you for all of the responses.

69% OF
RESPONDENTS

Feel that it is challenging to find health care professionals or providers where they live.

Would use a virtual directory if it was hosted through a nonprofit they trusted such as CCCN or a local public health agency.

81% OF
RESPONDENTS

92% OF
RESPONDENTS

Said they or someone close to them could benefit from a central coast virtual birth and wellness directory.
